

# WATERFRONT FORUM 2013

11-12 December 2013

HOTEL HYATT REGENCY WARSAW, 23 BELWEDERSKA STREET, WARSAW

Organizer:

Strategic partner:

Miasto  
Szczecin

Conference **Waterfront Forum 2013** focuses on the topics of economic, social, tourist and cultural activation of the waterfront cities and creates opportunities for the discussion about future development of the waterside regions in Poland. The main goal of the conference is to animate the public debate in terms of the cooperation of different bodies concerning various waterfront investments. **Waterfront Forum 2013** is a 2-days event full of presentations and debates supported by exhibitions and meetings with experts. Conference will be attended by many guests from Poland and abroad, national and local government representatives, scientists and entrepreneurs. Essential programme of the event is ensured by the Waterfront Forum Scientific Council. It is the biggest event of this kind in Poland.

### Discussion topics:

- ✦ Waterfront and new cities – impact of the investments in waterfront areas on the development of the urban zones
- ✦ Poland over the water and regional policy – waterfront in development strategies
- ✦ Waterfront investments in the new financial perspective of the European Union
- ✦ Waterfront as revitalizing and promotional project
- ✦ Directions of the urban transformation of the waterfront areas
- ✦ The West Sailing Trail as a civilizational project
- ✦ Industry in the waterfront area – trends
- ✦ Technologies for the waterfront construction industry
- ✦ Investments in waterfront projects
- ✦ Waterfront - area of tourism, culture and trade

Participation in the event is free and requires registration on [www.waterfront.com.pl](http://www.waterfront.com.pl)

Like Waterfront in Poland on Facebook

**Profiles of participants:** Waterfront investors, architects, urban planners, design studios' representatives, economists, representatives of local governments from all around Poland, scientists, financiers, construction companies, hydrotechnical companies, NGOs, specialists from many areas such as: revitalization, local and regional development, tourism, environmental protection, promotion of cities and regions, representatives of various European cities that already have waterfront development experience, students from such faculties as urban studies (including urban planning), geography, environmental protection, logistics, economics, political sciences and everyone interested in waterfront topics.

The conference is financed by the Regional Operational Programme of the West Pomerania Region
