„Revolution in municipal waste management system is opportunity for businesses in the sector”

6 October 2011, Warsaw, InterContinental Hotel, ul. E. Plater 49

time: 09.30 – 16.00

9.20 - 9.30 **Greeting**, *Stefan Bekir Assanowicz, President of the Council of the Polish-Spanish Chamber of Commerce*

9.30 - 9.40 **Introduction**, *Prof. Michał Kulesza, Partner, Domański Zakrzewski Palinka*

9.40 - 10.20 **Municipal waste management in Poland – current status diagnosis**, *Emilia Kołaczek, Waste Management Department, Ministry of the Environment*

- Production of municipal waste in Poland. Basic data on content and composition.
- Outline of current municipal waste management system
- Existing infrastructure and scale of investments needed in waste management installations

10.20 - 10.50 **Municipal waste management in Poland – predicted directions of changes**, *Anna Ogradowczyk, environmental specialist / Krzysztof Hoinca, specialist in energy and thermal processing of waste, Mott MacDonald Limited*

- Directions of changes in municipal waste management system in relation to assumptions under Directive 2008/98/EC:
 - recycling of raw material waste in municipal waste
 - Green Paper on bio-waste management in the EU
 - recycling of energy from municipal waste
- Directions of changes in relation to organisational, technical and technological assumptions adopted for waste management regions:
 - highly populated areas with a high density – large cities and cities' urbanised areas;
 - regions with low population density – areas of small towns and rural municipalities.

10.50 - 11.20 **Revolution in municipal waste management system**, *Marcin Krakowiak, Partner, Law Firm Domański Zakrzewski Palinka*

- Basic assumptions for the new waste management system
- New duties of municipalities and voivodship local governments
- Selected problems in financing public services (waste management fee)
- Municipalities' contracting models: waste collection, or waste collection and treatment
- Vested rights issues, role of existing installations for the waste management system
- Does a change in the law constitute an opportunity or a threat to business entities?
- Transition period issues.

11.20 - 11.50 **Financing waste management infrastructural projects vs. European funds**, *Krzysztof Siwek, Director of the Individual Projects Preparation Department, Ministry of Regional Development*

- Use of European funds – 2007-2013 financial perspective. What is ahead of us?
- EU financial perspective for 2014-2020 vs. waste management investments needed.
